

Data Centre Automated Drawing

Progress Report 6

Work-in-process

Updating and working on new columns in the Excel sheet related to the Visio document.

Learning Visual Basic language and working on the coding part of the application.

Roadblocks

We are still working on a non-licensed version of Microsoft Visio 2013.

Still waiting to get access and download it licensed from EPITA student's account.

Last meetings

In the last meeting 26th April 2019 at 1:30 pm, we have discussed the progress of the coding, the updates needed for the excel sheets and the result we should get by the end of May.
