

Data Centre Automated Drawing

Progress Report 3

Work-in-process

Taking the required help and material from the previous team in Programming, scaling 2D and 3D prototypes and designing.

Working on VBA, 2D prototype, macros and Microsoft Visio.

Roadblocks

We are working on a non-licensed version of Microsoft Visio 2013.

Still waiting to get access and download it licensed from EPITA student's account.

Last meetings

In the last meeting 2nd April 2019 at 1:30 pm, we have discussed the progress of the project and added planning for the next 2 weeks.

In the meeting 21st March 2019 at 1 pm, we installed Microsoft Visio 2013 without a license to start working on it, and discussed the design of the poster and logo.
