Progress:

- Integrated the code to increase the number of racks in the display
- Working on 2D drawing with the stencils and the colors of the servers as discussed with the sponsor during the last meeting
- Working to implement the colour code based on criticality as well

Roadblocks:

- We are facing errors in Integrating different classes
- We are still working on Microsoft Visio 2013 unlicensed version
- We got Microsoft Visio 2016 from Mr. Olivier, but we will continue working on the 2013 version to avoid compatibility issues
